The Amberley Village uses CommunitySafe to notify residents of road closures

The Amberley Village began using CommunitySafe in spring 2007. Using CommunitySafe, Village leaders are able to send mass messages in a matter of minutes to all 3,000 of the Village residents.

In the short time since adopting the application, Amberley Village has used CommunitySafe to alert residents of road closures, water main issues and weather notifications, although the opportunities to use CommunitySafe are nearly endless.

“CommunitySafe is a great product and I am very happy with the service. The consultants have been tremendously helpful throughout this process and we continue to be grateful for their assistance.”

CommunitySafe enables messages, whether emergency or informational in nature, to be dispersed almost immediately. In addition, CommunitySafe users will receive first-class customer service from trained professionals. “I have recommended this service to everyone I know, from Emergency Services to Schools, Churches and local sports teams. Time is always a factor and everyone can save themselves time by using CommunitySafe.”

Lieutenant Rich Wallace has experienced on a personal level the benefits of using Community Safe. He explains, “My son’s baseball team recently began using CommunitySafe. When I first showed the team mom how to use the system she was amazed and said she would pay double just to save that much time. Her time is valuable and she appreciates how CommunitySafe can save her time and energy.”
