

# Little Miami High School Girls Soccer Team stays connected with CommunitySafe

## Client Overview

The Little Miami High School Girls Soccer team is part of the Little Miami School District. The district covers 98 square miles and comprises the communities of Morrow, Maineville, Butlerville and Hamilton Township. Little Miami Schools are located in Ohio in Warren County, which is the second fastest growing county in Ohio.

The schools in the district include one high school, one junior high, three elementary schools and a kindergarten annex. There are over 3,600 students enrolled in the district.

Throughout the district a variety of activities are offered including band, orchestra, photography, debate team as well as football, basketball, soccer, track and much more.

With a busy soccer season approaching, Head Coach Bruce Mills was in search of a tool that allowed him to easily communicate to his players and their families. After researching other options, Little Miami High School Girls Soccer team chose CommunitySafe because of its strong reputation and recommendations from others. The team has been using CommunitySafe since June 2007, and they have been thrilled with the results.

*"I have recommended CommunitySafe to other coaches and friends in the community. This system is especially useful in relaying last minute messages. It is very convenient to send a voice or text message from anywhere, and to be confident that the message will be received."*

Since implementing the system, the Little Miami High School Girls Soccer team has realized the advantages of using CommunitySafe. With 36 players on two teams, Coach Mills is able to save himself valuable time with CommunitySafe.

*Coach Mills explains, "Practice was cancelled one day because of the weather, and I was able to quickly inform the players and their parents using CommunitySafe. Parents find it reassuring to know what is going on in their children's lives."*

Recently, the team was participating in a tournament an hour from home and qualified for the championship game. Unfortunately, the game had to be cancelled. Coach Mills then used CommunitySafe to create a message and notify parents and players.

*"I was able to send a voice and text message to players and their parents on their cell phones. This was very convenient since the families were not at home. I can't even imagine the headache that would have resulted had we not used CommunitySafe."*
