

Northwest Local Schools *Use CommunitySafe For Routine School Communications*

Client Overview

Northwest Local School District is located in Hamilton County in Ohio, approximately 12 miles from downtown Cincinnati. There are 9,600 students enrolled in the district's two high schools, three middle schools and nine elementary schools.

The district covers 56 square miles

District Specifics

Northwest Local Schools offer a wide range of academic programs including advanced placement courses, gifted education, college preparatory courses, as well as career vocational and special education programs.

In 2007, ten of the schools in the district were rated as excellent or effective on the Ohio State Report card.

Northwest Local Schools began using CommunitySafe one year ago to notify parents of emergency situations and to relay important closing or delay information to parents, students and staff.

With 9,600 students and 1,100 staff in 14 different facilities, CommunitySafe enables all parties to receive information in a timely and convenient manner. For school administrators, CommunitySafe has been a time-saving and efficient tool. Instead of manually calling thousands of households, CommunitySafe's technology allows messages to be sent within minutes. With CommunitySafe you will be confident that all groups will receive the same message!

"The staff at CommunitySafe were very helpful in getting us started with loading our phone numbers and creating our call lists. They promptly answered any questions we had, even on the busy snow days. They provided helpful suggestions for organizing and using our lists. They treat our data and our communications with the same urgency and concern that we do."

Parents and staff in the Northwest school district love CommunitySafe. So much in fact that those who originally neglected to provide the district with updated phone numbers were very quick to update them once they heard of the informational and emergency calls. Families appreciate the convenience of the weather closing or delay messages on the phone instead of having to wait to hear it on television or radio.

"Working with CommunitySafe has been a real pleasure. Increased communication always pays off. This system has helped us to get our messages out to parents which helps our staff, the parents and our students. The implementation of this system was a big community relations success for us."
